Youth Club **Spring Edition** — 2024

EARTH: THE JOURNEY BEGINS

THE STARLIGHT TRAIL SOLAR ESCAPE

*"Youth Club, do you copy? Over.
Youth Club, we have a problem here. Do you copy? Over.
The sun needs more fuel?! What do we do? Over."*

Ahh! Young voyagers — keep reading this newsletter to help Jasper continue their galactic mission!

This Youth Savings Month, Jasper takes a cosmic adventure where rescuing the solar system means knowing more about savings! Read through the missions on the other side and claim spectacular riches. If you want to enter, all you need is a monthly total deposit of \$50 or more. *Ready the engine, light-speed ahead!*

SPACE SCHOLAR

\$100 GIFT CARD
@DAVE & BUSTERS or
LOCAL MOVIE THEATER

Make a minimum deposit of **\$50** into your Velocity youth savings account, and you'll automatically be entered in the drawing.

(Winners will be contacted for location preference.)

SOLAR ASTRONAUT

\$200 GIFT CARD
@DAVE & BUSTERS or
LOCAL MOVIE THEATER

Make a minimum deposit of **\$200** into your Velocity youth savings account, and you'll automatically be entered in the drawing.

*Plus, any youth challenger who makes a minimum deposit of \$30 at one of our branches gets a free **Amy's Ice Cream** gift card.*

All prize winners will be notified the week of May 6.

MOON: A SPEED BOOST MISSION

We need more speed if you're going to make it to the sun!
See if you can spot all five differences as you journey past the moon.

Fun Fact: Unlike the Earth, which rotates every day, the moon does not. Any time you look up at the moon, you'll always be viewing the same side. Scientists like to call this a "FIXED" position.

SUN: A SOLAR SAVINGS MISSION

Scenario:

You contribute \$20 worth of fuel to the sun every month.

Think of it like contributing \$20 to your savings account every month.

In 3 months ...
The sun is at 25%.
You've saved \$60 so far.

In 6 months ...
The sun is at 50%.
You've saved \$120 so far.

In 12 months ...
The sun is back at 100%.
Now you've saved \$240!

Remember:
Saving isn't a one-time effort; consistency is the key to building a strong savings habit. A zero balance is like the sun having no fuel!

MISSION SUCCESS: LET'S GO HOME

Congratulations, young voyager! You saved our solar system, and now it's time to unwind! Check out these local opportunities for some family-friendly fun.

Total Solar Eclipse across Central Texas

April 8, 2024, starting around 1:36 PM.

Visibility varies by location.

Witness a rare total eclipse right in our own backyard! Families can see the moment the moon perfectly aligns between the Earth and the sun, blocking the sun's light — just don't forget the safety glasses. You won't get to see another TOTAL eclipse until 2044!

Lego Labs at Austin Public Libraries

Various dates and times, including after-school programs.

Free, open to the public; pre-registration may be required.

Tell a story through your imagination as you have fun with LEGOs. Kids will use their creativity and learn to build simple objects. Drop off your kids after work or attend together as a family!

Junior Jumpers Jam at Altitude – Round Rock

Jump time on weekdays (11am – 1 pm) meant for kids 6 and under, but all are welcome!

Kids 2 and under get in FREE with adult admission.

Express your energy at this incredible indoor playground! You'll find unique obstacle courses, and parents can participate alongside their kids. Imagine all the fun you'll have!
