

DRIVE FURTHER WITH MAJOR MECHANICAL PROTECTION

Are You Prepared for Unexpected Vehicle Repairs?

Vehicles today come standard with advanced electronics and computerized systems, which require specialized parts and extensive training to repair- substantially increasing your costs to maintain your car.

Major Mechanical Protection (MMP) can help protect you from costly out-of-pocket expenses from unexpected repairs or breakdowns. An MMP policy is often much less than the cost of a single repair, and in most cases, you will not have to pay anything more than a small deductible should a breakdown occur.

*Figure 1

By adding mechanical protection, you can protect yourself from costly repairs and make the most of your vehicle investment!

Speak to one of our representatives to find out how you can add **MMP** to your new or used vehicle¹ today!

* Actual cost may vary by vehicle year, make, and model. Prices based on specific manufacturer-suggested labor & component repair prices for a representative sample of 2017 Asian/Domestic vehicles as reported by a nationally-recognized labor/time publication.

1. Your purchase of a Major Mechanical Protection contract is optional. Plans are available for most new and used domestic and imported vehicles. Speak to your service representative for vehicle eligibility criteria and more details. Major Mechanical Protection is considered insurance coverage in some states.
